Dear Mr. Taylor:

Re: Reclamation Surety Estimate, Body Tody Mine, M/015/040, Emery County, Utah

Please find enclosed the surety estimate the Division recently generated for the Body Tody site. The amount is slightly lower than the figure we discussed earlier, resulting from a reduction of the revegetation cost from \$750 to \$500 per acre.

The estimate is a conservative one and should be adequate to cover your site even though the details to the MRP have not been finalized.

I have enclosed a reclamation contract with this letter and estimate. The contract must be filled out and sent along with the estimate before final approval can be made. Please let me know what type of surety/bond you intend to use, so that I can send you the proper form for that type of surety. Please contact me if you have further questions.

Sincerely,

Holland Shepherd  
Senior Reclamation Specialist
